

# OAKLAND SUMMER JOBS<sup>+</sup>

United Way of the Bay Area

Summer Jobs<sup>+</sup> expanded into Oakland for the first time this year. Oakland Summer Jobs<sup>+</sup> enabled 192 youth to explore opportunities across a wide range of sectors—including medicine, nonprofit, technology, law and business. We look forward to building on this momentum by placing even more youth in jobs and internships in 2015, while continuing to connect work and education for young adults so that they can build a strong foundation for long-term success and prosperity.

The expansion of our work into Oakland was made possible by funding from several key partners. Bank of America—a founding partner of San Francisco Summer Jobs<sup>+</sup>—provided seed funding for the move into Oakland. Chevron’s leading support served as a further catalyst for the success of the program in year one, along with a multi-year commitment from The Jonas Family Fund, and founding contributions from T.J. Long Foundation and Matson Navigation.
